Concert Planning…. *The Concert Planning committee is meeting tonight to finalise our Concert Program for this year. We have the possibility to arrange a Concert at the Strathalbyn Uniting church during August or September. This should be finalised before the meeting tonight. The Victor Harbor Concert at Adare Uniting church is a possibility to be held on Sunday 12th October. This has not been finalised as this concert would be a week before our End of Year concert on the 19th October. The Concert at Moonta Mines church on Sunday 18th May is progressing. We have been offered to have lunch ready for us at 11:30am and then our rehearsal at 12 noon. The Concert will begin at 1pm to 3pm. The church has another group using from 4pm which makes the planning of the Concert a little tight for time. June Ladner the manager for the Concert is sending me some of the songs that they wish to sing in unison. I have prepared a Poster for them to use and information about the Lobethal Harmony club which she is placing this information in the local paper. The Concert Planning committee will be focusing on Concerts for 26.*

The Paul Staska Solo Performance…*Is planned to be held on Sunday 1st June. A sheet explaining the details of the Paul Staska Performance afternoon is being distributed tonight. Read through the details and give it a go. It is a good afternoon to enjoy. If you have any questions see Graham and Dorothy.*

Subs are due.. *So far 6 people have paid their subs. Thank you. Lobethal Harmony club bank details are BSB 105 057 Account No 240342840 Bank SA.*

Fred's Miracle….*I did not know that a Golf Course could be soooooooooooo hazardous. But Fred found the dry dam bank a little high to clamber up and to his horror he rolled down to the base of the dry dam to receive his injury to his arm. But, Fred was not deterred he came and set up the chairs before practice and we THANK YOU Fred for your effort. Take care when you are traversing the "Traps" of the golf course in the future. I hope you found plenty of golf balls in the base of the dam.*
